

DRY HIRE AVAILABLE ON WEEKLY OR LONG TERM BASIS

RAMPS SHALL ONLY BE INSTALLED ON LINES UNDER ENGINEERING POSSESSIONS

This system is designed to take heavy road rail plant and equipment up to 30 Tonne in weight.

Offers railhead protection whilst enabling easy crossing of the rail and on/off tracking. Ease of on and off tracking is further enhanced by utilisation of 4 foot fillers creating a flat platform for the machine to mount.

- 600mm Ramp (4 Ramps): 20kg
- Rail Shield 1.2m: 12kg
- Four Foot Filler Section: 48kg
- Heavy Duty: 165kg / 820kg (Unladen / Loaded)

- 16 off 600mm Heavy Duty Ramps
- 8 off Heavy Duty Four-Footer Filler Sections
- 8 off 1.2 Metre Rail Shields
- 1 off Special Ramp Tree

Please contact us for our weekly hire rates and delivery charges. If you require a team to install and remove, we can provide a quotation. **(Call 01302 738020).**

THE RRAP MUST BE REMOVED AND SECURED CLEAR OF THE RUNNING LINE BEFORE THE END OF THE ENGINEERING POSSESSION
